The option to choose your own seats will not be

that seats are not locked up during the peak demand  
period ensuring the system can cope with the  
demand. You will be sold the best seats available at  
the time of sale.

The TECC are fully aware that demand for this event  
is high. The TECC wish to inform you that when  
tickets go on sale there are multiple patrons  
purchasing multiple tickets off multiple devices thus  
meaning that floor and lower seats may not be  
available as these tickets will then be put into a hold  
system for 7 minutes and then not released back into  
public sale until the time has passed or the purchaser  
does not want them anymore.
